Plattenkogel (circular route)

A scenic circular route for the whole family with a summit.

This circular route starts in Hochkrimml at the Filzstein Alpine Inn. From here the path leads over alpine meadows to the summit cross of the Krimml local mountain - the Plattenkogel. Directly below the summit, the cozy BergGeistAlm invites you to stop for refreshments. At the summit, in good weather, you have a magnificent view of the Hohe Tauern with the glaciated peaks, as well as to the east over the entire Salzach valley and to the west into the Tyrolean Zillertal. The descent leads us towards the Gletscherblick Alm. Here you have a great view of the Durlassboden reservoir and the Wildgerlostal valley behind it with the peaks Gabler and Reichenspitze dominating the valley. From "Silberleiten" you hike back to the starting point.
The route is also accessible by bike.
