Climbing-garden Riederklamm

At the newly built Climbinggarden Riederklamm you can learn to climb with different difficulty levels to different routes.

NEW: "AUSTRIA'S LONGEST ROPE BRIDGE IN A CLIMBING ROUTE" with a length of 70 meters

The Riederklamm practice via ferrata offers various routes of different levels of difficulty enabling you to gain and improve skills for more challenging and longer tours. A platform has been constructed at the entry point offering access to various practice via ferratas.

For adrenaline junkies there are, in addition, two flying fox routes 80 metres above the gorge along a distance of 200 metres. May only be used when accompanied by a guide.
