

Duxeralm - Plattenkogel

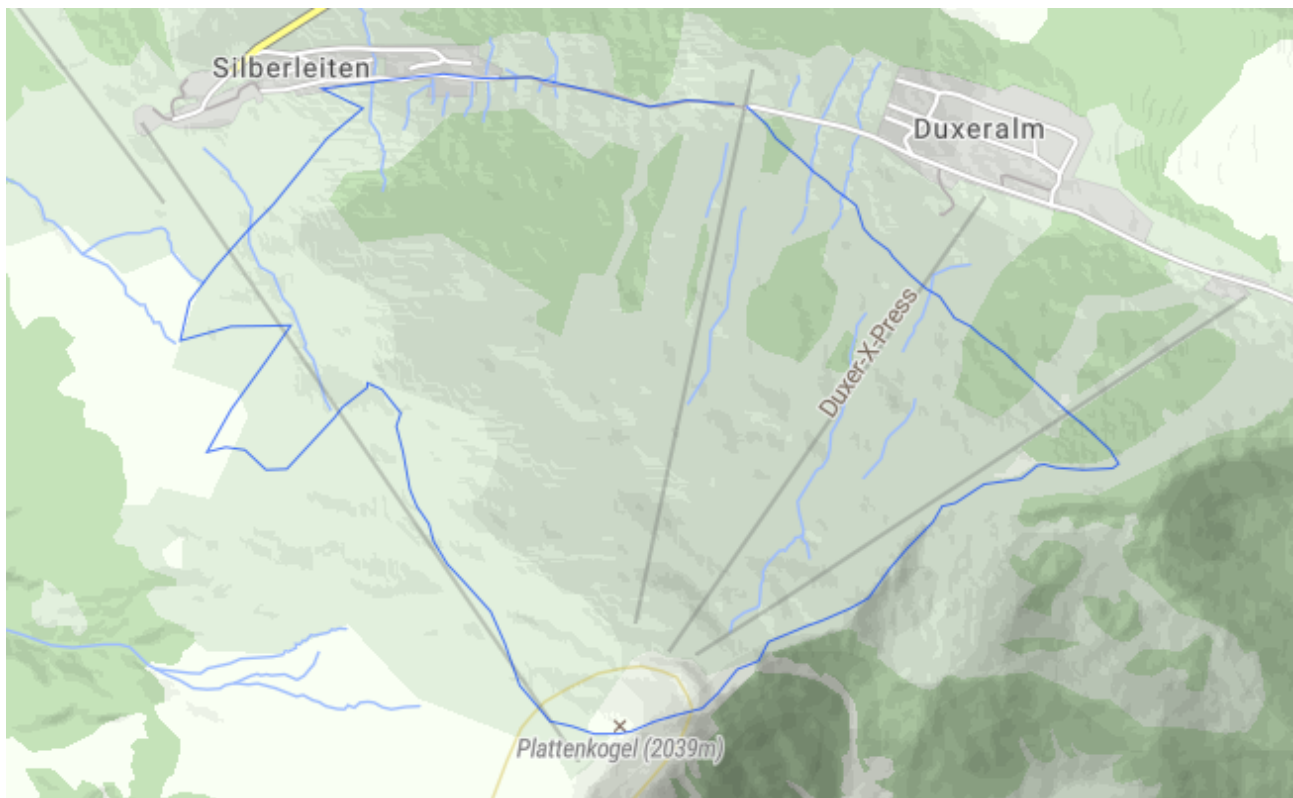

Beautiful circular route with summit and panorama

This circular route starts in the Hochkrimml district Duxeralm. From here, the path leads beside alpine meadows to the summit cross of the Krimml local mountain - the Plattenkogel. At the summit, in good weather, you have a magnificent view of the High Tauern with glaciated peaks, as well as to the east over the entire Salzach valley and to the west into the Tyrolean Zillertal. The descent leads us with a great view of the Durlassboden reservoir towards the Silberleiten district. On the route, you can take a short detour to the Gletscherblick Alm. From "Silberleiten" you hike back to the starting point.

Walking time	01:40 h
Route Length	5.98 km
Difficulty	Middle
altitude meters uphill	350 hm
altitude meters downhill	350 hm
highest point	2040 m
Route Start	Duxeralm
Route End	Duxeralm
