altitude meters downhill	178 hm
highest point	1169 m
Route Start	Kneipp fountain at the tourist office
Route End	Kneipp fountain at the tourist office

Description

A circular route in Krimml with refreshing Kneipp stations.

The circular route starts at the [Krimml tourist office](#). From here you walk to Panoramahotel Burgeck, where the sculpture route begins. A special feature on this path is Anton Wallner's birthplace. Later, you pass the [WasserWelten](#), which is definitely worth a visit. Another highlight is the world-famous [Krimml Waterfalls](#), which offer a great cooling effect from the spray during high water flow. If you walk the circular route back on the right side of the river towards Krimml, you will pass the Kneipp facility where you can refresh yourself again. Via the "Holztratte" you return to the starting point.
