Description

The exciting path is dominated by the interplay between man and ecology. The starting point of the hike is in Gerlos, opposite the restaurant Jägerstüberl. Children and adults can collect educational, sensory experiences at over 40 stations along the path and let nature work its magic. Numerous sculptures, like a tree struck by lightning, the insect hotel or a water wheel make the path along the Gerlosbach relaxing and motivate even the smallest hiker to continue along the path. Become one with nature and listen to the rippling of the stream, built "stonemen" with your children or enjoy the fresh smell of the mountain forest with closed eyes. The eventful path is a special natural experience and work of art for the whole family!

Numerous refreshment stops in the whole village.

Tip: Visit the Gerlos Adventure Land on the way with its forest playground, the new „Variety Rich Trail“, a mountain bike exercise trail and a pumptrack, a high ropes course, tree houses and much more!
